TAHARA IRONWORKS CO.,LTD.

# About Company

- Founded in 1929 (Showa 4)
- Started as an electric welding company
- Evolved into welding, metal fabrication, sheet metal, and machining
- Serving diverse industries with reliable quality
- Committed to continuous improvement and customer satisfaction

Company President

Hiromi Tahara

Capital

10 million Yen

Headquarters

Nagaoka, Niigata

Branch Office

Chofu City, Tokyo

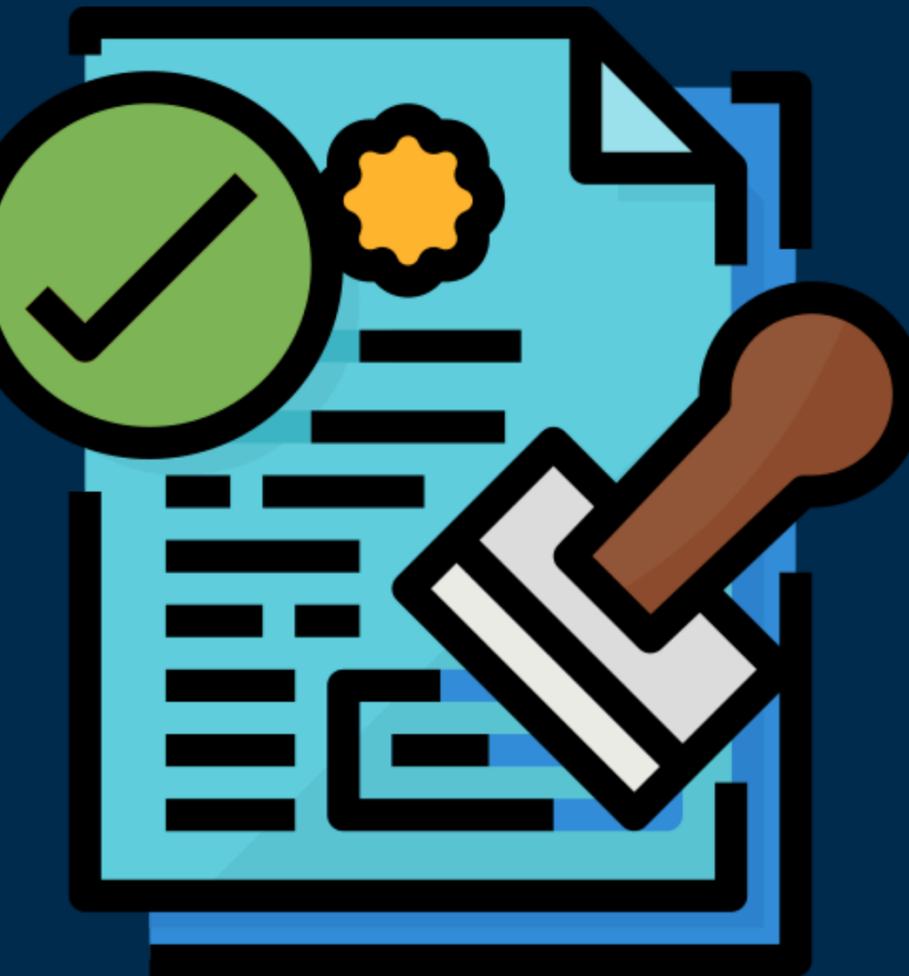

Employees

28

# Company Overview

# List of Licensed Personnel

## Welding Licences

- Arc Welding  
N-2F/4 persons   N-2H/4 persons   A-2F/5 persons
- Semi-Automatic Welding  
SA-2F/14 persons   SA-2H/6 persons
- Stainless Steel Welding  
TN-F/6 persons   MA-F/4 persons
- Ordinary Boiler Welder: 2 persons
- Certified Floor-Operated Overhead Crane Operator: 20 persons
- Certified Slinging Operator: 20 persons
- Certified High-Pressure Gas Safety Operator: 1 person

**Our  
Philosophy**

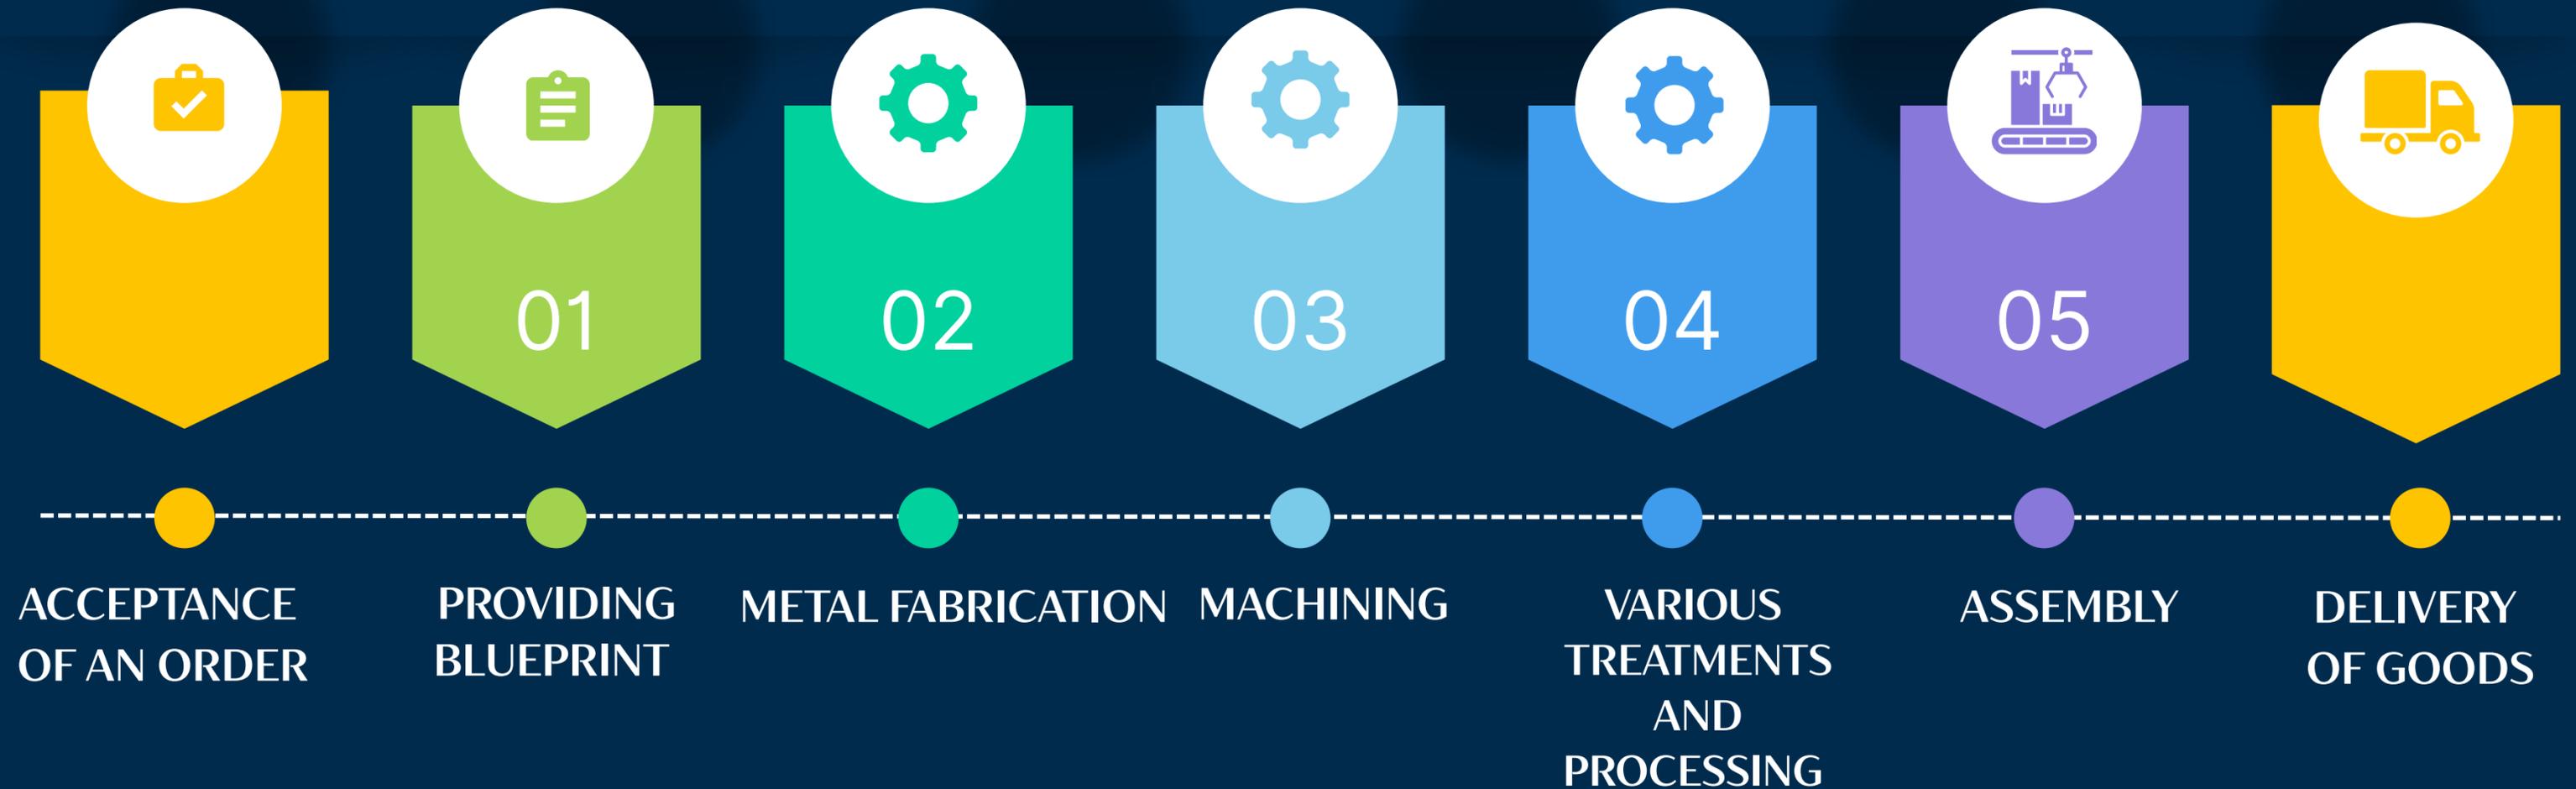

Deliver superior quality  
through advanced technology

Meet customer needs with  
on-time delivery, high quality,  
and competitive pricing

Value our people and focus on  
continuous human resource  
development

# Our Workflow

Complete in-house production

# Our Services

- Multi-industry manufacturing support
- Large sheet-metal fabrication
- Precision machining
- Steel frames & covers
- Surface finishing solutions

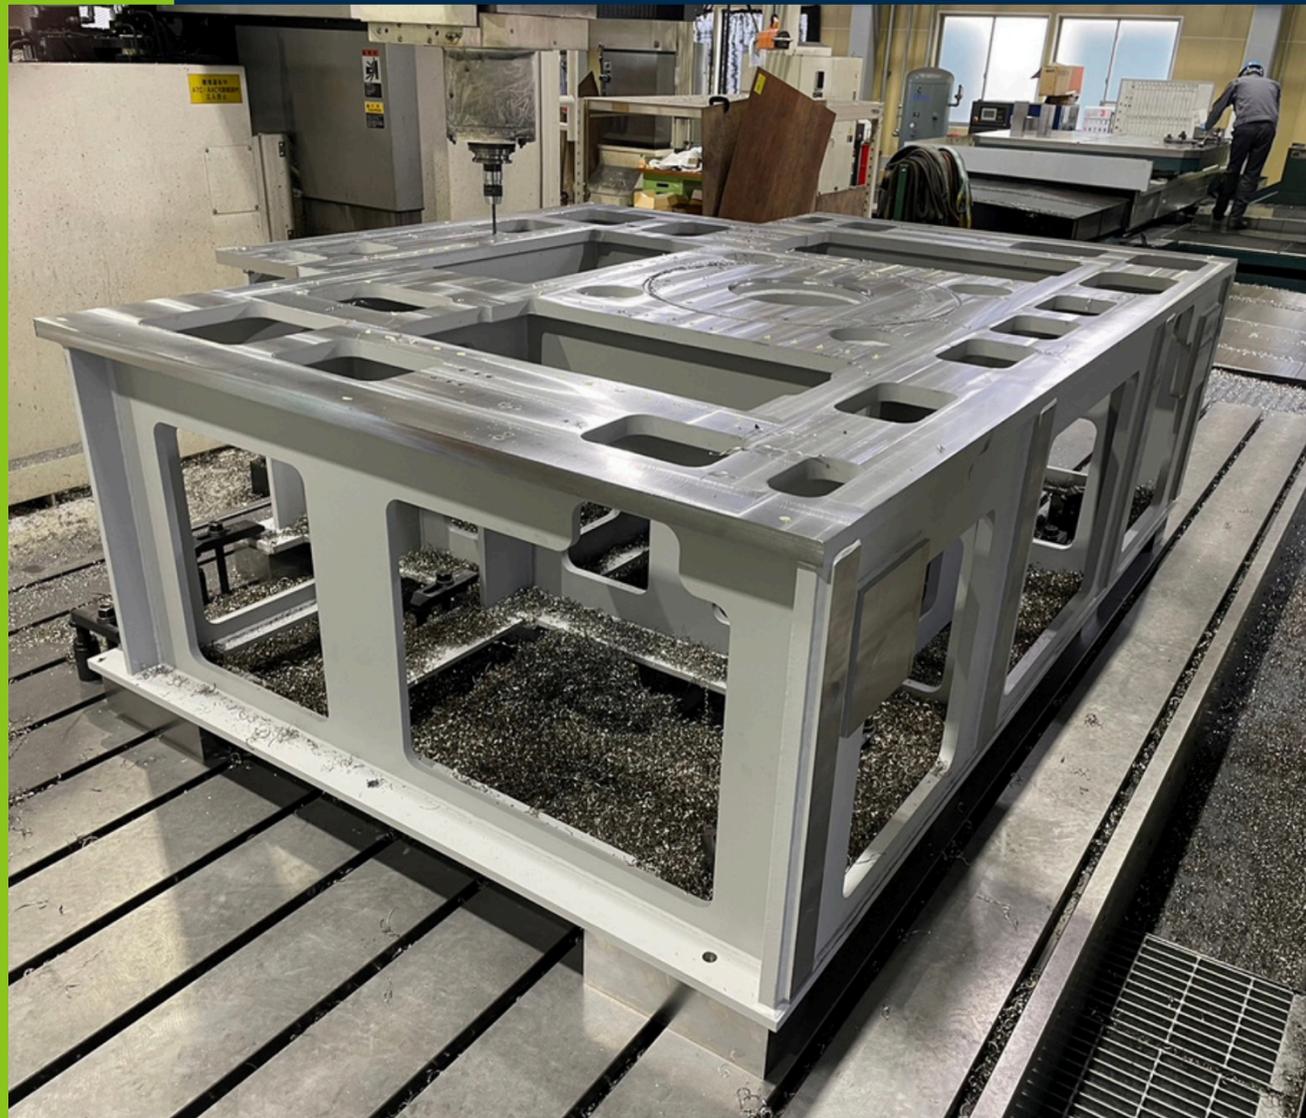

## Our Manufacturing Services

# Metal Fabrication

- Safe manufacturing and product handling
- Reliable performance and delivery
- High-quality production standards
- Utilization of advanced technology in every process

## Our Manufacturing Services

# Machining

- Manufacture a wide variety of components
- Equipped for diverse customer requirements
- Extensive range of machining equipment
- Support for both small and large production volumes

## Our Manufacturing Services

# Processing/ Treatments

- Coating and plating options
- Anodized aluminum capabilities
- Support for various material finishes
- Reliable quality for durability and appearance

## Our Manufacturing Services

# Assembling

- High-accuracy mechanical assembly
- Streamlined process for efficient final build-up
- Quality inspections at each stage
- Smooth integration with machining and fabrication

# Our Products

- Tanks, equipment covers, and screws used in machine tools, industrial machinery, and food machinery
- Small fabricated components such as brackets
- Large welded structures including stands, frames, and steel fabrication beds
- Precision-machined parts for cast iron products and fabricated structures

# Main Equipment TAHARA IRONWORKS CO., LTD

## Double-column Machining Centre MPJ-2650

[Shibaura]

1 unit

[Stroke/X-axis 5200mm Y-axis 3000mm  
Z-axis 800mm]

[Table Size/2000mm × 5000mm]

## Vertical Machining Centre VM7III [OKK] / 1 unit

[Stroke/X-axis 1530mm  
Y-axis 740mm Z-axis 660mm]  
[Table size/1550mm × 740mm]

## CNC Horizontal Boring Mill KBT-13.A [KURAKI] / 1 unit

[Stroke/X-axis 3000mm  
Y-axis 2000mm Z-axis 1300mm  
W-axis 700mm]

[Table Size/1800mm×2200mm]

[Angle Plate Size/2000mm×1800mm]

Bending Roll  
(for Sheet Metal  
and Fabrication)  
[Kawai Works/Kanzaki  
Industry COPP]  
2 units

# Main Equipment TAHARA IRONWORKS CO., LTD

Radial Drilling Machine  
1 unit

Sheet Metal Press  
2 units

Automatic Sawing  
Machine  
[Amada]  
1 unit

Shearing  
2 units
